

Background

In response to public concern, the U.S. Congress urged EPA to conduct scientific research to examine the relationship between hydraulic fracturing and drinking water resources. EPA is undertaking a study to understand the potential impacts of hydraulic fracturing on drinking water resources, if any, and to identify the driving factors that may affect the severity and frequency of such impacts.

The scope of the study includes the full hydraulic fracturing water lifecycle—from water acquisition, through the mixing of chemicals and injection of fracturing fluids, to the post-fracturing stage, including the management of flowback and produced water and its ultimate treatment and disposal. The study will include a review of the published literature, analysis of existing data, scenario evaluation and modeling, laboratory studies and case studies.

To ensure that EPA is up-to-date on evolving hydraulic fracturing practices and technologies, EPA is soliciting public involvement in identifying relevant data and scientific literature specific to inform EPA's research study on the potential impacts of hydraulic fracturing on drinking water resources. While EPA conducts a thorough literature search, there may be studies or other primary technical sources that are not available through the open literature. EPA would appreciate receiving information from the public to help inform current and future research and ensure a robust record of scientific information. Consistent with our commitment to using the highest quality information, EPA prefers information which has been peer reviewed. Interested persons may provide scientific analyses, studies and other pertinent scientific information. EPA will consider all submissions but will give preference to peer reviewed data and literature sources.

Notice

Section 309(a) of the Clean Air Act requires that EPA make public its comments on EISs issued by other Federal agencies. EPA's comment letters on EISs are available at: <http://www.epa.gov/compliance/nepa/eisdata.html>.

SUPPLEMENTARY INFORMATION: As of October 1, 2012, EPA will not accept paper copies or CDs of EISs for filing purposes; all submissions on or after October 1, 2012 must be made through e-NEPA.

While this system eliminates the need to submit paper or CD copies to EPA to meet filing requirements, electronic submission does not change requirements for distribution of EISs for public review and comment. To begin using e-NEPA, you must first register with EPA's electronic reporting site—https://cdx.epa.gov/epa_home.asp.
